What a Purifier Removes Isn't Just Impurities

A typical water purifier filters water Clean and Clear but it doesn't add minerals back. Without minerals, the body may not make full use of the nutrients it takes in.

That's why
minerals
matter

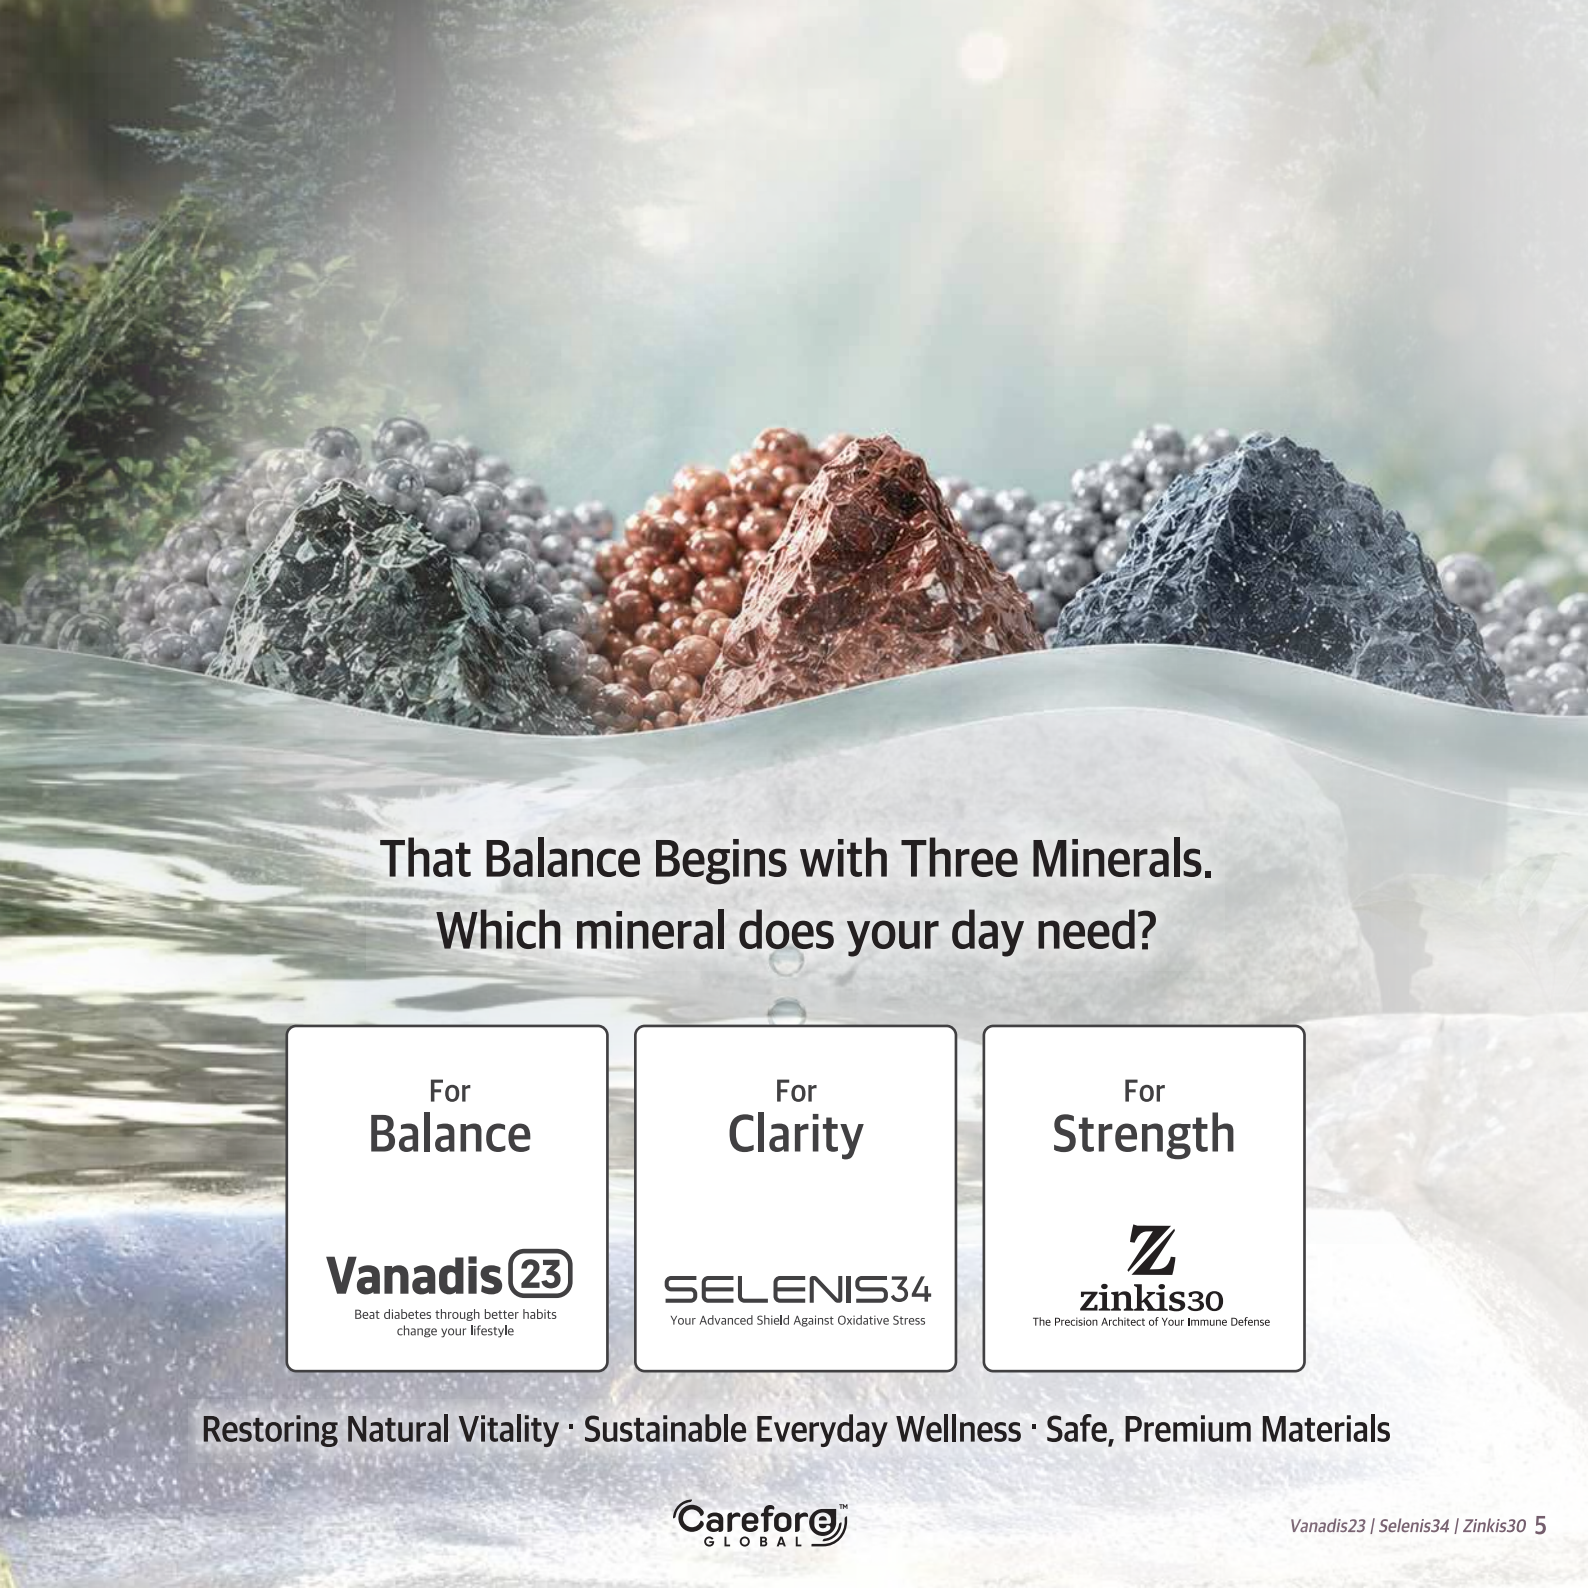

Has the water we've been drinking really been in its purest form?

Water is purified through filtration, becoming clean and Clear.
But has the essential balance of minerals it should contain
been preserved just as it was in the beginning?

Feelzen restores the balance of minerals that water should contain,
replenishing them to their original state.

That Balance Begins with Three Minerals.
Which mineral does your day need?

For
Balance

Rewrite Your Everyday Balance

The Habit-Changing Power of Vanadium

Vanadis23 is more than a cartridge - it crafts vanadium-infused, balanced mineral water.

Vanadium is a rare trace mineral known to support the body's natural metabolic rhythm. Together with silica, copper, calcium and magnesium, it supports balanced daily hydration.

Easy & Anywhere to use

Produce Healthy alkaline water
- Ionized minerals

Can be used for indoor and
outdoor activity

Eco friend materials : Recyclable
& BPA Free - Ecozen

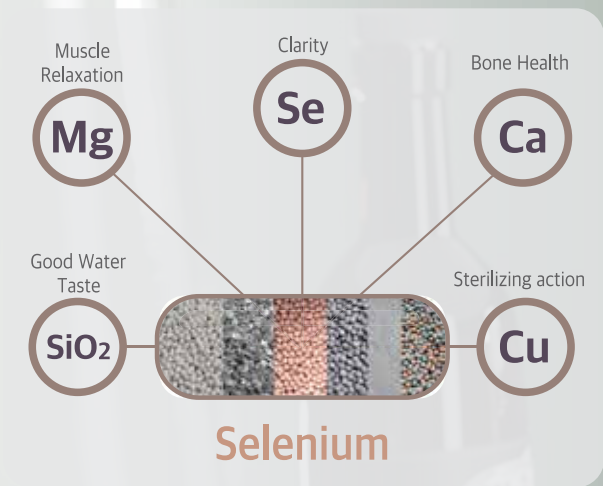

Vanadium 0.02ppm — well within the U.S. IOM upper intake reference (1.8ppm)

A Habit That Keeps You Clear

Inner Clarity, Powered by Selenium

Selenis34 is more than a cartridge - it crafts selenium-infused, clear and balanced mineral water.

Selenium 0.05ppm — within the range set by WHO(0.04) · FDA/NIH(0.055) · EPA(0.05) · EU EFSA(0.07)

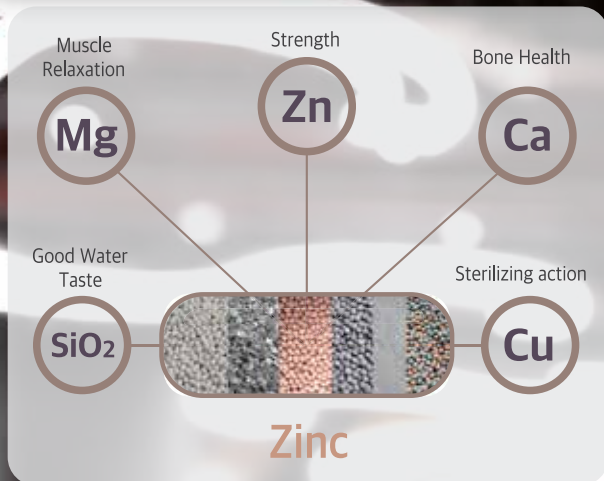

Selenium is a well-
recognized trace
mineral referenced
across major
international standards
- easily added to your
everyday glass of
water.

Fill Today with Strength

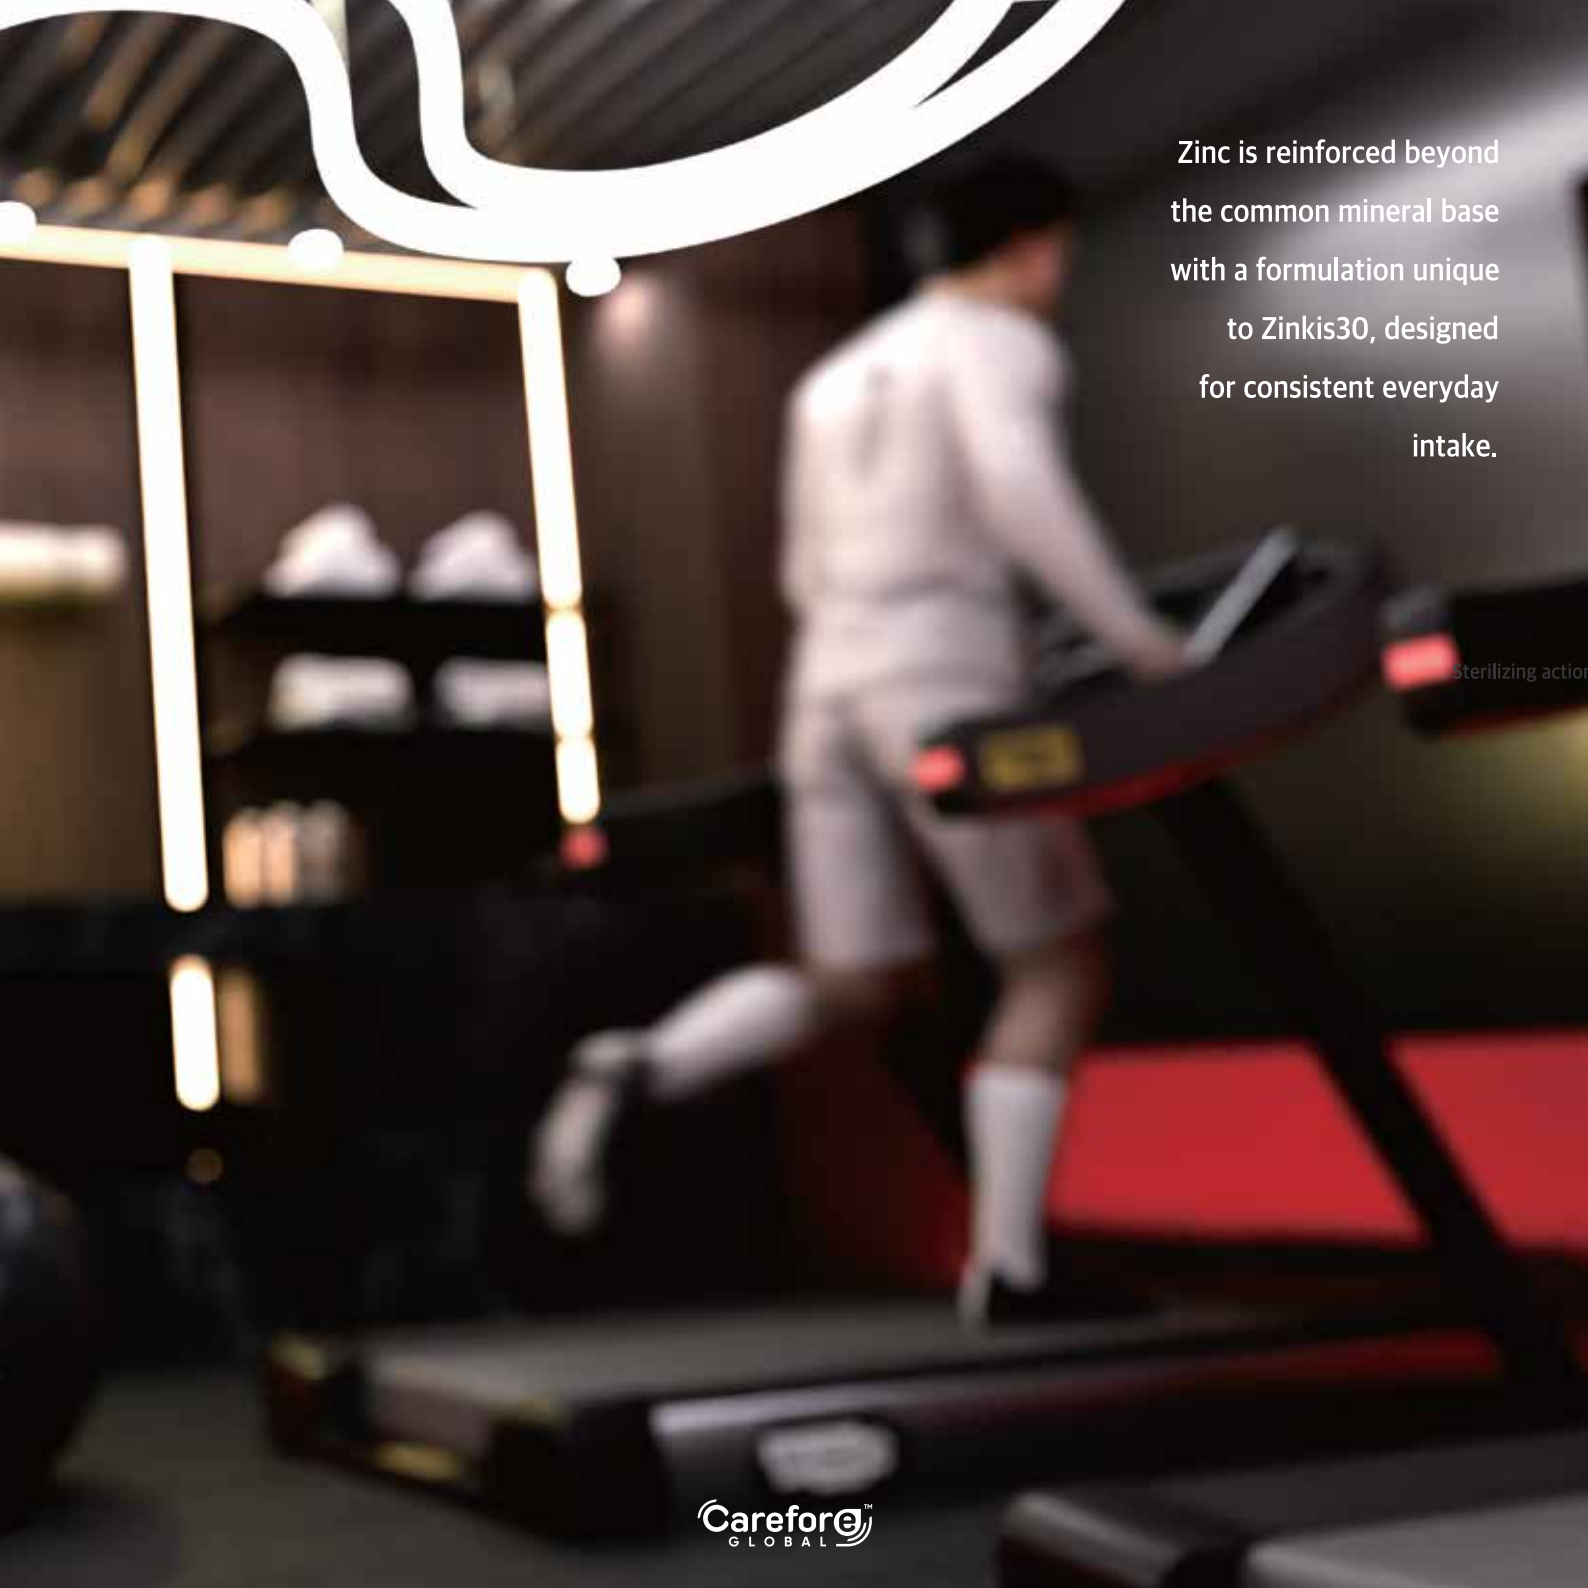

Daily Strength, Powered by Zinc

Zinkis30 is more than a cartridge — it crafts zinc-infused, strong and balanced mineral water.

Zinc 10ppm (5 common + 5 exclusive) — within the FDA/NIH upper reference (11ppm)

A blurred image of a person running on a treadmill in a gym. The person is wearing a white long-sleeved shirt and white shorts. The gym has modern lighting with warm, yellowish-white light tubes. The background is dark and out of focus.

Zinc is reinforced beyond
the common mineral base
with a formulation unique
to Zinkis30, designed
for consistent everyday
intake.

Unit: ppm = mg/L

Bicarbonate(HCO_3^-) Content Range Chart — Objectively indicating the position of Feelzen at 300 mg/L

What is Bicarbonate (HCO_3^-)?

It is a component naturally generated in natural mineral water that softens the water and helps with absorption into the body.

Everyday Safety, Backed by Ecozen So You Can Drink With Peace of Mind, Every Day

Feelzen tumblers are made with Ecozen (JN200), a BPA-free material widely recognized as safe enough for use in baby products. Built to withstand repeated washing and daily use without deformation, for lasting everyday use.

Material Ecozen JN200 · BPA Free · Recyclable

① Bio-based Material	Made from renewable resources, supporting sustainability and reducing reliance on fossil fuels.
② BPA-Free	Safe for food and beverage use, suitable even for baby products.
③ High Heat Resistance	Withstands high temperatures well.
④ Excellent Transparency	Provides glass-like clarity and gloss.
⑤ Superior Chemical Resistance	Resistant to various chemicals, maintaining durability through cleaning and sterilizing.
⑥ Impact Resistance	Strong and durable, less prone to cracking or breaking.
⑦ Eco-Friendly & Recyclable	More environmentally friendly and recyclable than conventional plastics.

5-Mineral Genesis and Bicarbonate

: Restoration of five essential minerals, including Vanadium.
Silica (SiO_2) | Vanadium (V^+) | Calcium (Ca^{2+}) |
Magnesium (Mg^{2+}) | Copper (Cu^{2+}) | Bicarbonate (HCO_3^-)

Pure Ecozen

: A safe vessel crafted from nature-derived materials.
